## **ABSTRACT**

In modern Era, physicians come across so many patients suffering from the disease *Tarunya pitika*. The incidence of *Tarunya pitika* is increasing day by day due to their fast lifestyle. Consumption of junk food, fast food, cold drinks leads to imbalances in *Doshas* which in turns affect body as well as mind. In *Susrut samhita, Tarunya pitika* is mentioned under *Kshudra rogas*. As per Modern science the symptoms of *Tarunya pitika* resembles Acne vulgaris. Acne is a chronic inflammatory disease of the pilo sebaceous units. Generally acne lesions appear at the places where sebaceous glands are naturally large and numerous as on Faces, Cheek, Neck, Back, Chest. All the dermatologists have considered Acne as the disease of sebaceous gland and it has cosmetological importance.

Perfect skin is, for most people, a distant dream. Chronic skin conditions typically are not curable in western system of medicine, but they can be manageable using Ayurvedic therapies and by paying close attention to our lifestyle. This case is a example of *Mukhadushika* like skin disease can be managed with Ayurvedic therapy. The combination of certain Ayurvedic drug such as *Arogyavardhini*, *Khadir*, *Daruharidra*, *Manjista* etc is effective for the management of *Tarunya pitika* in the Dose of 2 gms. bid. *Anupan*: Luke warm water. *Kala*: *Adhobhakt*.

KEYWORDS: Mukhadushika, Acne vulgaris, Arogyavardhini, Khadir, Daruharidra, Manjista.

## INTRODUCTION

Ayurveda is a prehistoric health science. It covers health maintenance and disease condition. Now a days many people are suffering from *Tarunya pitika*. In this disease there is no pain, uneasiness and body trouble.

Twacha, according to Ayurveda is not only the outer covering of body, but it is a *Dnyanendriya* which encompasses the body from within also. In short, it must be emphasized, that a healthy *Twacha* is the reflection of a Healthy body (*Swastha Deha*).

In modern era people became beauty conscious. *Tarunya pitika* word itself says that it is *Pittikotpati* in *Tarunya Awasta* due to some hormonal changes. Up to some limit it is normal but in excess it becomes a reason for depression in a person.

# CASE REPORT

The present case study is successful Ayurvedic management of a case of *Tarunya pitika* (Acne vulgaris). A 21 year old female patient came to us with chief compliant of -

- 1) Mukha pradeshi pitikopati (Acne vulgaris)
- 2) Twakvaivarnaya (Skin Discoloration)
- 3) *Kandu* (itching) on facial skin.
- 4) *Shotha* (swelling)
- 5) *Rujayuktya pitika* (painful boils)

Patient had above complaints since 1 year.

## History of personal illness

The patient was normal one year back. Since then patient has been suffering from *Mukha pradeshi pitikopati* (Acne vulgaris), *Twakvaivarnaya* (skin discoloration), *Kandu* (itching) on facial skin, *Shotha* (swelling, *Vedana* 

(pain). She had tried all kinds of skin creams and tablets, but nothing provided long-term relief from her problem, then she approached our hospital - Seth Sakharam Nemchand Jain Ayurvedic Rugnalaya in Kaychikitsa department OPD.

## **Personal History**

Occupation: student + farmer

O/E:

*Nadi* (pulse) = 74/min

*Mala* (stool) = Malavstamba

*Mutra* (urine) = Normal

*Jeeva* (tounge) = Eshatha saam

*Agni* = Normal

Shabda (speech) = Normal

*Druka* (eyes) = Normal

Akruti = Madhyama

Bala = Madhyama

Raktadaaba (B.P) = 130/70 mm/Hg

## **MATERIALS AND METHODS**

#### **MATERIALS**

## Ayurvedic Drug-Internal Churna Form

1. Arogyavardhini: 500mg

2. Khadir: 500mg

3. Daruharidra: 500mg

4. Manjista: 500mg

# Mild Virechan- Gandharva Haritaki 2 gm at night with Koshna jal Anupan

**Dose**: 2gm x Twice a Day **Anupan**: *Koshna jal* 

**Aushadhi Sevan Kal**: Adhobhakt **Route of Administration**: Oral **Type of treatment**: OPD Basis

**Duration**: 45 Days

**Follow up**: After every 7 days

## **METHODS**

Center of Study: Seth Sakharam Nemchand Jain

Ayurved Rugnalaya, Solapur.

# Gradation Symptoms:

S.No.	Symptoms	Mild (+)	Moderate (++)	Severe (+++)
1	Vedana	+	++	+++
2	Kandu	+	++	+++
3	Shotha	+	++	+++

## **Skin Discoloration**

Blackish	2(++)
Reddish	1(+)
Normal skin	0(-)

## Acne (Papules)

Pustules	4(++++)
Papules of big size	3(+++)
Papules of small size	2(++)
Open/closed comedones	1(+)
Normal	0(-)

#### DISCUSSION

## NIDAN PANCHAK

#### Hetu

- 1. *Ahar* Oily, spicy, sweet, fatty, fast food, cold drinks causes the disturbance of *Tridoshas*.
- 2. *Vihar- Atapsevan, Diwaswapna,* Exertion immediately after meal.
- 3. *Kala* The *Vata* and *Kapha* are vitiated by sheet *Guna* of climate and the *Ushana kala* vitiates *Rakta dhatu*.
- 4. *Vaya* Mostly occurs in *Tarunya avastha*.
- 5. Manasika nidan- Krodha, Chinta, causes Pitta prakopa, Vata vrudhi.
- 6. Antastravi Granthis (Endocrinal Factor)-Increased production of sex hormones the sebaceous gland become hyperactive. Androgen and progesterone are responsible for hyperplasia of oil glands.

## POORVA ROOPA

- *Tarunya pitika Poorva roopa* are not specifically mentioned by any *Granthakara*, but it may be as follows.
- Kandu
- Todwat vedna
- Shotha
- Vaivarnya

## ROOPA[1-3]

- The following are clinical manifestations of *Tarunya pitika*.
- Shalmalikantakwat pidika Pitika looks like Shalmalikantak i.e thorn of Shalmali tree which is slightly reddish brown in colour and hard.
- Kanduyukta pitika It occurs due to Dushti of Kapha.
- Stravayukta pitika It occurs due to Dushti of Kapha and Pitta.
- Rujayuktya pitika It occurs due to Vata prakopa.
- *Ghana pitika* It occurs due to accumulation of Kleda.
- Twakvaivarnaya It occurs due to Vata and Rakta.

### **SAMPRAPTI**

Hetu (Nidan) and Samprapti of Tarunya pitika are not mentioned in detail in Samhitas.

# Tarunya Pitika

#### SAMAPRATI GHATAKA

- Dosha Kapha, Vata
- Dushya Twacha, Sthanika ras, Rakta
- · Agni- Jataragni, Dhatwagani

- Strotus sthanika rasa, Rakata vahini.
- Udbhava sthana Amashaya
- Rogamarga Bhaya
- · Adhistana- Twacha
- · Sanchar sthana- Rasayani- sthanika
- Vyakta Sthana- Mukhagata twacha

## **DRUG ACTION**

## • Aroavavardhini[4]

Dipan, Pachan, Kushtaghana, Bhedan, Shothhar, Yakruttejak, Kaphkledaghana.

### • *Khadir*<sup>[5]</sup>

Pittaghana, Kushtaghana, Krumighana.

## • Daruharidra<sup>[6]</sup>

Pittaghana, Dipan, Yakruttejak, Kandughana.

## • *Manjista*[7]

Varnya, Shothhar, Kushtaghana, Raktaprasadan.

S.No	Symptoms	1st Day	1st wk	2nd wk	3 <sup>rd</sup> wk	4th wk	5th wk	6th wk
1	Pain (Vedana)	+	+	+	-	-	-	-
2	Itching (Kandu)	++	++	++	+	+	-	-
3	Swelling	+	+	+	-	-	-	-
4	Skin Discoloration	+	+	+	+	-	-	-
5	Acne	+	+	+	+	-	-	-

## CONCLUSION

Hence it is concluded that the combination of above Drugs is highly effective in the management of *Tarunya pitika*.
